DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claims 7, 18 and 30, line 1,respectively, "said" has been changed to –an--. In claim 22,

- -line 15, "said" before "first depth" has been changed to -a--;
- -line 19, "a" before "first depth" has been changed to -said--;
- -line 20, "said" before "electrons" has been deleted.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose the recited limitations "said elongate pins having a first depth along said beam tunnel from said beam exit to a first distance from said exit aperture and a second depth from said first distance to said beam entrance" (claim 1); "said elongate pins having a plurality of step change depths, each step change depth occurring a unique distance from said exit aperture" (claim 12); "a beam tunnel reflection end having a plurality of said elongate pins, said beam tunnel reflection end having one or more regions whereby said elongated pins change depth" (claims 22 and 35). The remaining

claims 2-11, 13-21, 23-34 and 36-47 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1 through 47.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Harper, Patent No. 4,807,355; Connolly, Patent No. 4,315,194; Karp, Patent No. 4,237,402; Theis, Patent No. 6,417,622; McIntyre, Patent No. 5,227,701; Chodorow, Patent No. 3,233,139; Heffner et al., Patent No. 2,891,191; Hergenrother, Patent No. 2,930,926.

None of the above patents discloses the limitations recited above.
